about LASBM

LASBM membership is open to all school business management support staff in the North West area. Our aim is to provide a network to support our business management colleagues in all school phases.

We hold termly conferences, which because of increasing numbers, are now usually split into East and West Lancashire. Conferences are structured in such a way as to provide optimum value for both delegates and sponsors. They comprise a mix of keynote speakers, sponsor presentations, relevant sponsor exhibitors and SBM development and networking sessions.

Conference planning is guided by delegate responses, and feedback is consistently excellent. Our group is growing, with over 370 members receiving regular information from LASBM. Conferences are always well-attended, and delegate and sponsor feedback is consistently excellent.
